Notes 39

LET SIBIU Surprise You

You discover the Miniature Europe.
In Hermannstadt we have been speaking different languages for centuries and we understand each other perfectly.

You are fascinated by tradition and innovation.
In our city, craftsmen and IT specialists work on the same street

You explore one of the most fascinating cities in Romania.
The Michelin Guide awarded Sibiu three stars.
Come and convince yourself that we are worthy of them!

Key Attractions:

BRIDGE OF LIES

The pedestrian bridge connecting the two parts of the Small square allows the link between the Lower Town and the Upper Town. The bridge is placed on a gate bridge belonging to the 2nd fortification wall. The initially vaulted passage used to be made through an conglomerate of buildings which had been demolished in 1851.
The legend says that the bridge will collapse if someone will sit on it and tell a lie.
In the local oral tradition circulates various legends about this bridge,
legends about the lovers lies or those of the merchants that sold in the area.

COUNCIL TOWER

It is one of the most famous monuments of Sibiu.
It bears this name because it used to defend the entrance gate into the second precinct, situated in the immediate vicinity of the building which once hosted the City Hall of Sibiu, mentioned in the documents for the first time in 1324.

ASTRA – MUSEUM

The ASTRA Museum of Folkloric Traditional Civilization is situated in the Dumbrava Forest, at a distance of 4 kilometers from the city. The museum functions since 1963 under the name of the Museum of Folkloric Technique and stretches over 96 hectares and an exhibition circuit of 10 kilometers in length. The museum hosts original monuments representative for the values of the Romanian village.

BRUKENTHAL MUSEUM

After his return to Sibiu as the Governor of the Great Principality of Transylvania (1777-1787), the Baron Samuel von Brukenthal brought along his collections, and Hochmeister's Calendar for the year 1790 mentions among the attractions of the city the painting collections including 800 paintings divided in 13 halls of the Brukenthal Palace. Over time the collections enriched both through acquisitions and donations.

THE DEFENSE TOWERS AND WALLS

One next to another, the old stronghold towers gather round the heart of the city like a girdle of unflinching sentries. "The Red City" – that's how they called Sibiu because of its red clay brick walls that kept the foes at bay. The fortifications watched over the whole history of Hermannstadt and these walls carry the city's 823 years of attested history carved deep within them.

ZOO SIBIU

The first zoo in Romania was founded in 1929 in the Dumbrava Forest, by the Electricity Factory Sibiu, thanks to the initiative of engineer Szekely. The idea occurred to him when he encountered some foxes while working at the Sadu dam.

COMPREHENSIVE ADVANCEMENTS IN RESEARCH AND EXCHANGES FOR NEURO-ONCOLOGY

Dear friends,

It is a great pleasure to invite you to participate in the ***3rd edition*** of the ***International Conference, "Comprehensive Advancements in Research and Exchanges for Neuro-Oncology,"*** CARE4NEURO-ONCOLOGY, organized by Lucian Blaga University of Sibiu, Faculty of Medicine, with the support of the Romanian College of Physicians and MedLife healthcare system. The event will take place from ***October 23–25, 2025, in Sibiu, Romania.***

The previous edition of this conference was a success, bringing together over ***350 participants and 51 internationally renowned speakers,*** which has motivated us to continue this tradition in 2025.

The primary objective of this year's edition is to emphasize multidisciplinary sessions, providing a unique platform for collaboration across various medical fields involved in the diagnosis and treatment of brain, spinal, or peripheral nerve tumors in both adults and children. Through this initiative, we aim to facilitate the exchange of knowledge, ideas, and best practices, highlighting the importance of a holistic approach to neuro-oncological disease management.

The previous edition united experts in oncology, anatomical pathology, radiotherapy, neurosurgery, medical rehabilitation, psychiatry, internal

medicine, palliative care, pain management, anesthesia and intensive care, ENT, ophthalmology, neurology, and radiology, offering a comprehensive perspective on the challenges and advancements in the field.

We are convinced that modern medicine is a multidisciplinary science and that oncological treatments must be personalized and tailored to each patient. Under this principle, we invite you to join us and contribute to the success of this conference.

The conference will take place at the same venue as the previous edition, at ***Lucian Blaga University of Sibiu, Faculty of Medicine, Aula Magna,*** which provides exceptional conditions for hosting such events.
In addition to the high-quality scientific program, participants are invited to explore the city of Sibiu, a multicultural gem of Transylvania, where tradition and modernity harmoniously intertwine.

We look forward to having you join us at our event, dedicated to advancements in neuro-oncology.

Warmly,
Dr. Claudiu Matei, MD, PhD

General Information

ORGANIZERS

- Lucian Blaga University of Sibiu, Romania, Faculty of Medicine of Sibiu
- Romanian College of Physicians – Sibiu
- The conference was organized with the support of **MedLife**

OFFICIAL LANGUAGE

The working language of the conference is Romanian. Scientific presentation will be held in English.

BADGES

All participants must wear their badges while they are inside the congress center.

CATERING

Participants will serve the coffee braks/lunch in the designated spaces, as detailed in the Program HandBook.

MOBILE PHONES

During all sessions, it is necessary to turn off mobile phones.

ACREDITATION

The Romanian College of Physicians (CMR) will award **18 Continuing Medical Education points** for attending the conference.

INFO STAND

You will find the Info Stand at the Faculty of Medicine's lobby, with the following working schedule:

- **Thursday** October 23th 2025 09:00 - 17:40
- **Friday** October 24th 2025 09:00 - 17:00
- **Saturday** October 25th 2025 09:00 - 18:30

care4cancer ACCESS

To enter the conference room, you'll need to use the badge that you'll receive upon registering at the Info Stand. Seats in the room will be allocated on a first-come, first-served basis.

CERTIFICAT OF ATTENDANCE

Once the conference is over, you will receive a certificate of attendance, after completing a short satisfaction survey.

SMOKING

Only in designated areas is smoking permitted.

LOST AND FOUND

The information stand is the designated location to collect lost property. In case of a lost item, kindly get in touch with the Info Stand for reporting.

SISTEMUL MEDICAL
MedLife

General Information

ELECTRICITY

The electricity in Romania runs on 220 volts and the frequency is 50 Hz. EU standard plugs are used (two round pins). A plug adaptor will be required for non-EU type plugs.

DRUGS AND FIRST AID

A wide range of non-prescription drugs are readily available at local pharmacies. For other medication you will need a prescription signed by a registered Romanian doctor.

In case of emergency please call the 112 emergency number.

LIABILITY AND INSURANCE

The CARE4CANCER CONFERENCE 2024 operator will not assume responsibility for injury and/or damage involving persons or property during the event. All participants are advised to prevent/avoid any injury/loss.

SAFETY NOTICES

During the Conference please maintain appropriate behavior. Organizers may deny access to individuals who disrupt the smooth running of the Conference.Any damage or harm caused to the event location will be the responsibility of the person responsible. Participation in the Conference is voluntary. Neither the venue nor the organizer accepts any responsibility for loss, theft, disappearance of belongings, or personal injuries.

Please be aware that the entire event location is under VIDEO surveillance.

INFORMATION FOR INVITED SPEAKERS

The materials need to be handed over to the technical team in the room where the presentation will be held, with at least 2 hours before the time scheduled for your presentation. For the presentations in the first morning session, **please hand them over either a day before or 30 min.** before the session begins. Not being able to respect the technical specification or the time limit (there will be a timer on the screen during your presentation) could have a negative impact on your presentation.
